

Identify Your Priorities:

Synchronizing the couple

Instructions: print this sheet and cut it down the middle. Sit down together. Grab your beverage of choice, light a candle and put-on some music. Then, privately and silently, without saying a word to each other, choose three from each category. When you are both finished, share your answers. If you agree, GREAT! If you don't, spend time listening and validating each other as to why they made their selections. This is not a time for persuasion or decision making - that can come later. This is a way in which each of your voices can be acknowledged and it will help guide all your future wedding planning decisions!
